Sir:

Applicants submit herewith a foreign language reference, DE 201 21 631, to be made of record in the above-referenced application. There is no readily available English language translation of the reference.

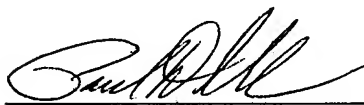

As presently understood, the reference relates to an electronic element for building nanoelectric circuits with a redox active unit having an electron donor and an electron acceptor. The electron donor or electron acceptor may be a chinon derivative. The chinon derivative is different from the ones claimed in the present application and is chemically bonded

to huge molecules, such as porphyrines.

Applicant does not believe that this submission requires a fee. However, if for any reason a fee is due, the Commissioner is hereby authorized to charge payment of any fees required in connection with this submission to Deposit Account No. 02-4377. A duplicate copy of this sheet is enclosed herewith.

Respectfully submitted,

BAKER BOTTS L.L.P.
